Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are typically information inquiries (last night’s lottery drawing, room reservations, etc.). *The calls received by the HelpLine Center labeled “Lottery” and “Casino” are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Intake Calls YTD 2020

Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of September 2020, the total number of intake calls was 148 (fig. 3).**

The Council has received 16 chat/text requests for help in September 2020. This is in addition to the 148 phone calls requesting help in September.

Figure 3

One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Internet gambling was the activity named during the majority of calls in September 2020 (fig. 4). This is likely related to the restrictions impacting in-person access to gaming venues due to COVID-19.

Figure 4

Pennsylvania Helpline for Compulsive Gamblers

This month, Allegheny and Philadelphia counties accounted for about 34% intake calls. In September 2020, the Helpline saw Lehigh, Montgomery and Erie Counties make up an additional 16% of intake calls.
